

Aditya Shinde

Pune, India — 9970718742 — adityashinde8742@gmail.com — LinkedIn — GitHub

Profile Summary

Data Scientist and Generative AI Trainer with 1.6+ years of teaching and technical training experience in Data Analytics, Machine Learning, and Generative AI. Skilled in Python, SQL, Power BI, LLMs, Prompt Engineering, RAG, LangChain, Embeddings, and Vector Databases. Experienced in developing AI-powered applications, intelligent chatbots, predictive models, and business analytics solutions. Passionate about training students and building practical solutions using modern Generative AI technologies.

Technical Skills

Languages	Python, SQL
Data Analysis	EDA, Data Cleaning, Data Visualization, Statistical Analysis, Feature Engineering, Business Analytics
Machine Learning	Regression, Classification, Clustering, Bagging, Boosting, NLP, Model Evaluation, Predictive Modeling
Generative AI	LLMs, Prompt Engineering, RAG (Retrieval-Augmented Generation), Embeddings, LangChain, Vector Databases, MCP(Model Context Protocol),LoRA (Low-Rank Adaptation)
Libraries/Tools	Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn,FAISS
Database	MySQL, Vector Databases
Business Intelligence	Power BI, Excel

Experience

Data Science & Generative AI Trainer	UV Technocrats & Solutions	2024 – Present
- Trained 200+ students in Python, SQL, Data Analytics, Machine Learning, Power BI, and Generative AI. - Conducted practical training sessions on EDA, Data Visualization, Predictive Modeling, and Business Analytics. - Delivered hands-on training on LLMs, Prompt Engineering, RAG Systems, LangChain, Embeddings, and Vector Databases. - Guided students in developing Machine Learning and Generative AI projects. - Provided practical exposure to Pandas, NumPy, Scikit-learn, Power BI, SQL, and Generative AI technologies. - Mentored students in GitHub project management, resume building, portfolio development, and interview preparation.		

Projects

E-commerce Sales Analysis

SQL, Power BI, Excel

- Analyzed sales datasets to identify customer behavior, sales trends, and business insights.
- Built interactive Power BI dashboards for revenue and performance analysis.
- Used SQL queries for data extraction, filtering, aggregation, and reporting.
- Created business-focused visualizations to support data-driven decision making and performance monitoring.

Loan Approval Prediction System

Python, Machine Learning, Scikit-learn

- Developed a Machine Learning model to predict loan approval status using classification algorithms.
- Performed data preprocessing, EDA, feature engineering, and model evaluation.
- Compared classification models using appropriate performance metrics to identify the best-performing model.
- Applied machine learning techniques to identify important factors influencing loan approval predictions.

UV Data Science Support Chatbot

LLM, RAG, LangChain, FAISS, Python, Generative AI

- Developed an AI-powered chatbot for answering Data Science and Generative AI related queries.
- Implemented Retrieval-Augmented Generation (RAG) using LangChain and FAISS Vector Database.
- Integrated Large Language Models (LLMs) for context-aware question answering.
- Built a PDF-based knowledge retrieval system for course materials and documentation.
- Improved response accuracy through embeddings, vector search, and prompt engineering techniques.
- Designed the system to provide relevant answers from uploaded course materials and knowledge documents.

Education

B.Sc. in Computer Science	2024
S.B.B. Alias Appasaheb Jedhe Arts, Commerce & Science College	74.64%
Higher Secondary Certificate (HSC)	2020
MES Sou Vimlabai Garware Junior College	50.82%
Secondary School Certificate (SSC)	2018
MES Boys High School & Junior College	76.20%
